Here you go:

On (date), EPA is releasing its Phase V Sampling Event Summary of Results and Methods. This document provides the sampling methods and results from EPA's joint sampling event with the U.S. Geological Survey in April 2012. EPA sampled both deep monitoring wells, five domestic or stock wells, and one municipal well for the town of Pavillion. Included with EPA's Summary of Results as Section C is the USGS Administrative Report providing data for a replicate sample collected at Monitoring Well 02 for submittal to the USGS contract laboratory.
